Schedule Your In-Person Tour Or Student Shadow Day Today! *See the Ambrose Advantage*

St. Ambrose Academy's mission is to assist parents in the formation of their children by providing a classical education rooted in the Catholic faith.

With a classical curriculum and the support of dedicated faculty, students learn how to be self-learners who can apply the core concepts, knowledge, and skills gained at SAA toward any challenge, educational path, career, or vocation to which God calls them.

We invite you to get to know the advantages that a vibrant, Catholic, and classical education can offer to your student. The information shared here is just a glimpse into who we are as a school community and we encourage you to reach out to get to know more and have your questions answered!

What Our Alumni Are Saying

"I owe SAA a debt of gratitude for preparing me academically. The focus on synthesizing information and the approach to learning in the classical education model has substantial overlap with how scientists consider problems in their original work."

Dr. Thomas Carey, Ph.D. | Class of 2008

"I'm still blown away by the formation I received in the faith and intellectually at St. Ambrose Academy and how this preparation guided me through the Naval Academy and my path afterward."

The knowledge shared by the faculty is incredible and they encourage us to gain skills, growing intellectually and preparing for our futures. But the additional commitment to the spiritual life, having an appreciation for the beauty of the sacraments, making mass and prayer a central part of your life, these are truly special gifts that will stay with me forever."

2nd Lieutenant William Donohoe,
U.S. Marine Corps | Class of 2017
